

# Mini-cours

## Linear algebraic groups, vector bundle classification and division rings

**15 ~ 19 Juin 2015, Lens (France)**

**Jean Fasel** (Institut Fourier – Grenoble)

*Some recent results on the classification of vector bundles over smooth affine schemes*

**Ulf Rehmann** (Universität Bielefeld)

*Linear algebraic groups and algebraic K-theory*

**Yoav Segev** (Ben-Gurion University)

*Maps that resemble valuations on division rings*

*Pour plus de renseignements, consulter le site: <http://laghribi.free.fr/mini-cours/>*
